PROFILE

I am a Software Engineering undergraduate at the Sri Lanka Institute of Information Technology (SLIIT) with a strong interest in software development and modern web technologies. I enjoy building practical applications and solving programming problems to improve my technical skills. I am currently focused on learning full-stack development and strengthening my knowledge in programming, databases, and system design.

EDUCATION

BSc (Hons) in Software Engineering | SLIIT – Sri Lanka Institute of Information Technology, Malabe

2024 – Present (3rd Year, Semester 1)

G.C.E. Advanced Level | Akkaraipattu National School

Completed prior to university enrolment

TECHNICAL SKILLS

Languages: Python, SQL, Java, JavaScript, C++

Frameworks & Libraries: React.js, Express.js, Node.js, Next.js

Databases: MySQL, MongoDB

Web Dev: React Vite, REST APIs, JWT, MySQL

Dev Tools: Git & GitHub, Visual Studio, Vercel

PROJECTS

MERN Stack E-Commerce Web Application

Self-Initiated Project - [GitHub](#)

- Full-stack e-commerce platform with product management and secure online payments. Implemented features such as product browsing, shopping cart, and user authentication.
- Used Technologies: MongoDB, Express.js, React.js, Node.js, Stripe, REST APIs, JWT Authentication Improved full-stack MERN development skills, API integration, payment gateway handling, and frontend-backend communication.

LMS (Learning Management System) Web Application

Self-Initiated Project - [GitHub](#)

- Online learning platform with course management, enrollments, and educator/student dashboards.
- Used Technologies: React.js, Node.js, Express.js, MongoDB, Clerk Authentication, Stripe, Cloudinary
- Learned role-based authentication, webhook handling, course management systems, and scalable backend architecture.

Web-Based Voting System for Reality Shows (Y2S1)

SLIIT – Y2S1- [GitHub](#)

- Secure online voting platform with admin management and real-time vote monitoring.
- Used Technologies: Java, JSP, Servlets, MySQL, MVC Architecture, Authentication, REST Concepts.
- Learned backend development, database integration, session handling and secure voting implementation.

LANGUAGES

Tamil (Mother Tongue) | English (Fluent) | Sinhala (Conversational)

CERTIFICATIONS

- Python For Beginners Certificate - University of Moratuwa (e-Certificate)
